

Nursery ~ Meithrin

Miss R. Western, Mrs C. Rees-Williams, Mrs R. Basar

This term our topic is 'Whiskers, Tusks Claws and Paws

Please support your child by talking about the activities they do in Nursery each day. Here are some of the skills we will be developing through continuous provision and focused tasks.

Language, Literacy and Communication skills

Talking about farms, zoos, pet shops, garden centres and other places we have visited.
Developing our vocabulary through role play in the pet shop or vets.
Talking about events and characters in stories and poems. Answering questions about what we have heard and recalling the sequence of events or predicting what might happen.
Learning to listen to our friends and teachers and to take turns when speaking.
Holding writing implements in pincer grip. Learning correct letter and number formation
Recognising and finding our names on our name cards.

Mathematical Development

Sorting, matching, ordering and counting objects. Joining in with number rhymes.
Playing counting games and taking turns.
Understanding 'one more' or 'one less' in play.
Using money in role play situations.
Recognising numbers to 10 and beyond.

Personal and Social Development

*Understanding that all living creatures should be treated with care, respect and concern.
Recognising appropriate behaviour for different situations. Developing skills of working and playing together and taking turns.
Being sensitive to the needs of others.
Learning to concentrate and complete activities.*

Creative Development

Cutting, sticking, painting, colouring and choosing from a range of materials.
Perform simple action songs.

Physical Development

Learning to listen to instructions and to move safely with control and to climb, run, hop and jump. To catch, throw and bounce different size balls.

Welsh Language Development

Find out about about Saint David and celebrating with a concert. Respond to simple instructions. Use diolch.
Join in with stories, songs and rhymes.

Knowledge and Understanding of the World

Finding out about different animals, their life cycles and habitats. Understanding the importance of caring for living things - creatures and plants.
