MISSION MARS

Our recruits will experience all things space, they'll learn all about rockets and how we're exploring our solar system. Our recruits will also see what it takes to be an astronaut and how to survive once we leave the safety of Earth!

WONDERFUL WORLD

Our campers will learn more about the world around us. Looking closer at the unique wetlands surrounding Cardiff Bay, they'll find out about plants and animals as well as food in the future and how our world is changing.

SPILL YOUR GUTS

Our campers will take a trip inside the human body; we'll take a closer look at our amazing insides from the fascinating to the downright disgusting! We'll also learn about our bodies building blocks and get hands-on with some bioscience!

RUNAWAY ROBOTS

Campers will use our LEGO® building kits to get creative and make a host of robots. They'll overcome our challenges by building and testing their creations, and diving into the fundamentals of programming to bring their work to life.

SCIENCE SLEUTHS

There's been a crime at Techniquest! We'll need our campers to help solve the mystery with all their science know-how. With puzzles, demonstrations and experiments we'll get to the bottom of this dastardly deed.

PACKAGES

		Standard 9:30am–3:30pm	Wrap-around 8:30am–5:30pm
1 day	1 child	£35	£45
