

Year 3 Home learning Activities

There are a wide range of activities in the Classwork section of Google Classroom for you to enjoy whilst you are home. It is really important that you read the instructions carefully and ask a family member to help you if you need to.

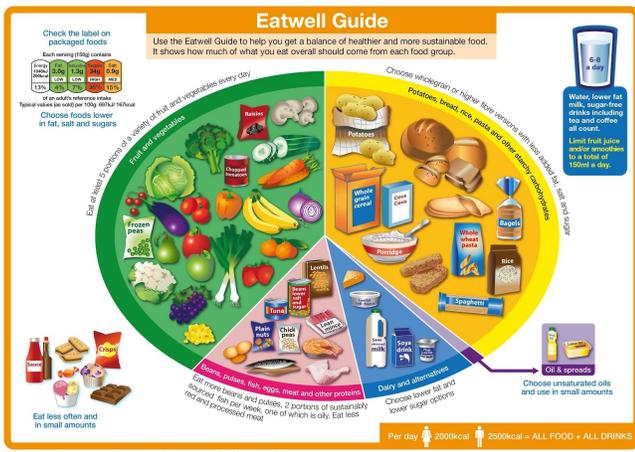

Please try your best to complete at least one reading activity and Abacus maths activity everyday and then there are lots of other activities for you to complete during your time at home. You can upload the work you have completed for each assignment, the option to upload can be seen when you open each assignment.

Reading
<u>Giglets Reading Activities</u> There are a range of reading and comprehension activities for you on the Giglets website. To log in: Account type: pupil School Code: sullyps Username: first name.last name (remember the full stop in between your first name and last name with no spaces) Password: Year 3 (remember there are 2 spaces in between Year and 3 and you must use a capital Y) https://pupil.gigletsedu.com/landing/
<u>Read Theory Reading Activities</u> Continue to complete comprehension tasks on the Read Theory website https://readtheory.org/
Maths
<u>Abacus Active Learn</u> There are a wide range of interactive games for you to play on the Abacus Active Learn website. Your login details are in your homework book and the school code is 7msa. https://www.activelearnprimary.co.uk/login?c=0
<u>Maths Revision</u> Use the maths booklets posted in the maths section in 'Classwork' on Google Classroom to practise what we have learnt in maths this year. Let's keep our maths skills on the boil!

Topic

Healthy Meals

Use the Eatwell Guide to help you design a healthy meal plan. Your meal plan could be a whole day of different meals or even longer if you like. Remember a healthy diet includes a range of foods from all sections of the Eatwell Guide (the larger the section, the more we should eat). Use your prior knowledge, ask a family member to help you and carry out research in books and the internet, in order to think of different meals which are healthy and nutritious. Upload your work to Google Classroom.

<https://www.nhs.uk/live-well/eat-well/the-eatwell-guide/>

Cookery!

If you are able to work with a family member, film yourself cooking your favourite meal to make a cookery video. Remember to explain clearly what you are doing and show each step of the cooking process. Upload your finished video to Google Classroom for your friends to see what you have made and try it out at home for themselves.

Recipe Writing

Write a recipe for your favourite meal or create a new recipe for a meal you have created.

Remember the layout of a recipe which you have used in school. You can use the recipe template in the template gallery in Google Docs to help you with the layout.

Don't forget the ingredients list and utensils list.

Remember to use numbered bullet points for each step in the method section.

Try to use different sentence starters for each new step.

Upload your work to Google Classroom.

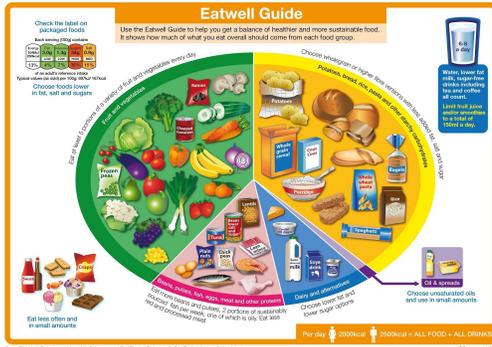

My Favourite Foods

Use Google Slides to create a slide show about your favourite foods.

Remember, don't copy and paste the information you find on the internet, write sentences in your own words.

Also, use the explore button to find copyright free pictures that you can use.

Make sure you mention the 'Eatwell Guide' in your slide show: where in the Eatwell Guide do your favourite foods belong?

Welsh

Welsh Reading Activities

In the Cymraeg section in Classwork on Google Classroom there are a variety of Welsh texts to read and activities to try based on the texts. Enjoy! Mwynhewch!

Science

Digestion in the Body

Research how our body digests the food we eat. You can choose how you want to present your findings.

You could make a slide show, write a poem or story, or make a video. Upload your finished work to Google Classroom.

Our Teeth

Find out which drinks are good and bad for our teeth and write a list of recommended drinks and drinks to avoid (or have just as a treat) in order to keep our teeth healthy.

Looking After My Teeth

Find out about the different ways we can look after our teeth. Research brushing our teeth, but also find out about the impact of our diet on our teeth. Create a poster to help others to look after their teeth and keep their teeth healthy. Upload your poster here. You can complete this using Google Slides or Google Docs.

All About Teeth

Do some research on the internet, read a book or ask a family member about the different types of teeth we have. When you have completed your research, make a slide show using Google Slides. Upload your finished slide show to Google Classroom.

PE

Daily Mile

If you are able to, try to do the daily mile as much as possible (this could be done in your garden). You can walk, skip, run, jog, scoot, cycle or use any other form of travelling you enjoy.

Why don't you keep track of your daily miles and see how far you have travelled altogether? Miss Eaton is convinced you will complete a marathon!
